

ADR TANK CONTAINERS AND UN PORTABLE TANKS

adr tank containers and pdf

A tank container is built to the ISO standards, making it suitable for different modes of transportation. Both hazardous and non-hazardous products can be transported in tank containers. A tank container is a vessel of stainless steel surrounded by an insulation and protective layer of usually polyurethane and aluminum. The vessel is in the middle of a steel frame.

Tank container - Wikipedia

1. Introduction and Definitions 1.1 Definitions Terms used in this guidance have the same meaning as in the ADR and current national legislation concerning the carriage of dangerous goods by road.

ADR - Health and Safety Authority

ADR (formally, the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR)) is a 1957 United Nations treaty that governs transnational transport of hazardous materials. "ADR" is derived from the French name for the treaty: Accord européen relatif au transport international des marchandises Dangereuses par Route). ...
