- [Instructor] It's hard to find two technologies that as closely intertwined as HTML and CSS. Indeed, it's almost impossible to teach one without at least mentioning the other. It's actually quite common for new web designers to learn both HTML and CSS at the same time. So in this chapter, I wanna take a brief look at styling so that you can see how these two technologies work together and ...

I always like how in FreshBooks to edit invoices you literally just click and interact directly with a web page that looks like an invoice. I got to thinking it would be a kinda cool idea to create an editable HTML invoice of my own. This of course can't do nearly all the awesome stuff FreshBooks can do, but it might be useful to some of you with extremely lightweight invoicing needs.
