Financial accounting (or financial accountancy) is the field of accounting concerned with the summary, analysis and reporting of financial transactions pertaining to a business. This involves the preparation of financial statements available for public consumption. Stockholders, suppliers, banks, employees, government agencies, business owners, and other stakeholders are examples of people ...

Earnings quality, in accounting, refers to the ability of reported earnings (income) to predict a company's future earnings. It is an assessment criterion for how "repeatable, controllable and bankable" a firm's earnings are, amongst other factors, and has variously been defined as the degree to which earnings reflect underlying economic effects, are better estimates of cash flows, are ...
