Archaeological Research in Asia | ScienceDirect.com

International Journal of Archaeology (IJA) is established specifically to deal with archaeology on a world-wide multiperiod basis. It provides an international forum for innovative, descriptive and theoretical archaeological research, paying particular attention to the role and development of human intellectual abilities and symbolic beliefs and practices?with contributions from an ...

International Journal of Archaeology :: Science Publishing

The discovery of these marked skulls was immediately related to the afore-mentioned ancient texts from Strabo and Diodorus of Sicily. These texts indicated that the Gauls, to quote Strabo - "embalmed the head of the most famous enemy with cedar oil" (IV, 4, 5 in Lasserre, 1966). This is the reason why chemical analysis, as opposed to other types of analyses, was undertaken.

Embalmed heads of the Celtic Iron Age in the south of

How To Get Published. The strength of Science and its online journal sites rests with the strengths of its community of authors, who provide cutting-edge research, incisive scientific commentary ...

(PDF) Formation processes of the archaeological record

Archaeology, or archeology, is the study of human activity through the recovery and analysis of material culture. The archaeological record consists of artifacts, architecture, biofacts or ecofacts and cultural landscapes. Archaeology can be considered both a social science and a branch of the humanities. In North America archaeology is a sub-field of anthropology, while in Europe it is often ...
