Ethnolinguistics (sometimes called cultural linguistics) is a field of linguistics that studies the relationship between language and culture and how different ethnic groups perceive the world. It is the combination between ethnology and linguistics. The former refers to the way of life of an entire community: all the characteristics that distinguish one community from the other.

Syntactic Structures is a major work in linguistics by American linguist Noam Chomsky. It was first published in 1957. It introduced the idea of transformational generative grammar. This approach to syntax (the study of sentence structures) was fully formal (based on symbols and rules). At its base, this method uses phrase structure rules. These rules break down sentences into smaller parts ...

Bibliography. For reasons of space and convenience, the bibliography has been divided into three parts: The supplement Mental Imagery Bibliography is an extensive, but inevitably incomplete, bibliography of the science and philosophy of mental imagery. Many, but not all, of the works listed in it are discussed, or at least cited, in the main text of the entry, or in its supplements.

Mental Imagery (Stanford Encyclopedia of Philosophy)

The variable raw contains a string with 1,176,831 characters. (We can see that it is a string, using type(raw).) This is the raw content of the book, including many details we are not interested in such as whitespace, line breaks and blank lines.
