Learn about Pearson's products, services, and resources for higher education students, and gain insight into the latest education trends and research.

Higher Education | Pearson

Chemistry is the scientific discipline involved with elements and compounds composed of atoms, molecules and ions: their composition, structure, properties, behavior and the changes they undergo during a reaction with other substances.. In the scope of its subject, chemistry occupies an intermediate position between physics and biology. It is sometimes called the central science because it ...

Honesty On each exam day I am going to give you two examinations, one in chemistry and one in honesty. I hope you will pass them both, but if you must fail one, let it be chemistry, for there are many good people in this world today who cannot pass an examination in chemistry, but there are no good people in the world who cannot pass an examination in honesty.

A metalloid is a type of chemical element which has properties in between, or that are a mixture of, those of metals and nonmetals. There is neither a standard definition of a metalloid nor complete agreement on the elements appropriately classified as such. Despite the lack of specificity, the term remains in use in the literature of chemistry.. The six commonly recognised metalloids are boron ...

The Nobel Prize in Literature will once again be awarded, and this autumn Laureates for both 2018 and 2019 will be announced. The Nobel Foundation's Board of Directors believes that the steps that the Swedish Academy has taken and intends to take will create good opportunities for restoring trust in the Academy as a prize-awarding institution.
