3D beading generally uses the techniques of bead weaving, which can be further divided into right angle weave and peyote stitch.. Many 3D beading patterns are done in right angle weave, but sometimes both techniques are combined in the same piece.

Beadwork - Wikipedia

A bead is a small, decorative object that is formed in a variety of shapes and sizes of a material such as stone, bone, shell, glass, plastic, wood or pearl and with a small hole for threading or stringing. Beads range in size from under 1 millimetre (0.039 in) to over 1 centimetre (0.39 in) in diameter. A pair of beads made from Nassarius sea snail shells, approximately 100,000 years old, are ...

6. From here it's simply a matter of reheating the bead and dredging it into any enamel color(s) you like. Although it is true that opaque enamels will cover up colors fused to the bead previously, you can dredge portions of the cage in different colors and reheat the bead repeatedly until you have some beautiful color combinations in a single cage bead.
