Photo manipulation involves transforming or altering a photograph using various methods and techniques to achieve desired results. Some photo manipulations are considered skillful artwork while others are frowned upon as unethical practices, especially when used to deceive the public, such as that used for political propaganda, or to make a product or person look better.

## **Photoshop Compositing Made Easy - Concepts, Tips, and**

Photoshop can be a strange beast when it comes to working with type. While Photoshop isn't designed to have a powerful text layout engine, lacking the full-featured capabilities of InDesign for layout, and Illustrator for working with fonts and paths, Photoshop design work still often includes type faces as integral parts of the graphic design.
