The addition of a fourth light, the background light, makes for a four-point lighting setup.. The background light is placed behind the subject(s), on a high grid, or low to the ground. Unlike the other three lights, which illuminate foreground elements like actors and props, it illuminates background elements, such as walls or outdoor scenery.

Portrait photography or portraiture in photography is a photograph of a person or group of people that captures the personality of the subject by using effective lighting, backdrops, and poses. A portrait picture might be artistic, or it might be clinical, as part of a medical study. Frequently, portraits are commissioned for special occasions, such as weddings or school events.

A solar eclipse is such a rare and captivating phenomenon it's only natural to want to capture it in a sequence of photographs. However, when shooting a solar eclipse, even the lowest ISOs and fastest shutter speeds result in overexposed, blown-out images that fail to reflect the fascinating process.
